

Dear all,

The Global Forum on MSM and HIV (MSMGF) has begun planning for the bi-annual MSM Pre-Conference to the International AIDS Conference, this time to be held in Vienna in July, 2010. The event brings together advocates, service-providers, researchers, and artists from all over the world to present their work, attend plenary sessions, network with others, and participate in a wide variety of workshops.

To help us make this MSM Pre-Conference the best one yet, we invite you to participate in our survey to ensure that the issues that matter most to you are fully represented!

www.msmsgf.org/ViennaEN

Because these issues deserve a truly global dialogue, the MSMGF works with professional translators and dedicated volunteers to make sure your voice is heard not only by speakers of your own language, but across the Arabic-, Chinese-, English-, French-, Portuguese-, Russian- and Spanish-speaking worlds as well.

In addition to taking our survey, we welcome you to share more of your ideas at any time by joining other English-speakers in the English-language discussion forum. You can use this interactive space to discuss the feedback from other languages or start your own conversation.

Thank you very much in advance! We look forward to hearing what you have to say!

Best regards,

The MSMGF
