Every day, nearly 200 men in Asia contract HIV from having unsafe sex with another man.* The Asia Pacific Coalition on Male Sexual Health (APCOM) aims to squarely focus the spotlight on this issue at the upcoming 9th International Congress on AIDS in the Asia-Pacific (9th ICAAP). APCOM will draw attention to this issue through a range of key activities before and during the Congress, starting with the full-day pre-congress meeting, The 200 Forum.
