

Participate in Important New Survey on HIV Prevention Strategies Targeting MSM!
June 24, 2010

Dear Colleague,

You are invited to be part of the Global Forum on MSM and HIV (MSMGF) Survey on HIV Prevention Strategies Targeting Gay Men and Men Who Have Sex with Men (MSM)!

We are looking for gay men, MSM and providers from all over the world to take part so that we are able to better understand the HIV prevention knowledge and needs of MSM globally. We are also interested in hearing about the social realities for MSM in your area.

We know that you are very busy, but ask that you please consider taking the time to complete this important survey (it should take about 10 minutes). You can do so by clicking one of the following links:

We also encourage you to distribute this e-mail invitation as widely as possible throughout your networks and affiliations.

Thank you in advance for supporting this work. We will be sharing preliminary survey findings at the MSMGF's "Be Heard" Pre-Conference on July 17th in Vienna, Austria. We will also be publishing and disseminating a more extensive report on the findings later this year. Your participation will ensure that we communicate the broadest and most in-depth information possible regarding MSM HIV prevention knowledge and needs.

Should you have any questions, please do not hesitate to contact Pato Hebert at [@msmsgf.org](mailto:pato@msmsgf.org).

Best regards,

The Global Forum on MSM & HIV
